

Superb Internet Corporation Named: Best Dedicated Server Company

Host Review Chooses Superb Internet Corporation for December 2012

([PRWEB](#)) December 12, 2012 -- Superb Internet Corporation was awarded the #2 spot in 2011, and since then has strived to be the top dedicated hosting provider. With the recognition awarded to them this year, Superb Internet Corporation, is now a recognized leader in the industry of dedicated hosting. During the past year, the company has worked diligently toward receiving this recognition, by offering their customers the most knowledgeable technicians, cutting edge technology, a superior network, and has become a leader in the lease-to-own, dedicated server program.

Being awarded the designation of the "[Best Dedicated Server Company](#)," Superb Internet Corporation now becomes recognized as an industry leader in its field.

[Superb Internet Corporation](#) is proud to add this latest award to its impressive collection of achievements garnered over the past 16 years. The company was previously awarded "Best Hosting Company" from DedicatedServerDir.com and FindMyHost.com, and has been honored with a host of other achievements during the past.

The company is extremely proud of its latest accomplishment, since it was reviews from customers, which relegated it to a top position, above all their competitors, thereby allowing them to be recognized as the Best Dedicated Server Company.

Richard Norwood, Internet Marketing Manager for Superb Internet Corporation, recently described the company's journey since inception, as "finally hitting on all cylinders. Our technicians are the best in the industry, and our outstanding sales team always puts the customer's needs first, while only offering promotions that fit their needs. This year we're proud to be able to offer our valued customers the 'buy \$100 in hosting, and get \$1,600 in cash gift cards' promotion, as a way of celebrating our 16th Anniversary. When you need a dedicated server, it simply makes sense to choose Superb.net."

Superb Internet Corporation offers the best choices in the hosting industry with their one-of-a-kind, lease-to-own, dedicated server program. Now customers can buy a dedicated server, add \$25 per month to their invoice, and receive their own dedicated server in 12 months. They then pay only \$99 per month for co-location, which includes power and bandwidth.

About
