

Superb Internet Introduces Hosting Industry's First Managed White-Label Reseller Program

Today, Superb Internet Corp. unveiled White Label Shared Reseller Hosting: an industry first fully managed shared hosting reseller billing solution. The innovative reseller program includes a free billing platform, runs off Linux and cPanel, allows for unlimited customer accounts, and is 100% customer branded. Understanding the importance of commerce and security for their resellers' customers, Superb provides 5 dedicated IP addresses for the base plan, which starts at \$29/month and includes 50GB disk space and 5TB of transfer.

Seattle, WA ([PRWEB](#)) November 18, 2011 -- People who resell hosting are familiar with the agony of billing all of their clients month-to-month, often having to put up with countless phone calls and numerous billing-related emails. Today, Superb Internet Corp. unveiled White Label Shared [Reseller Hosting](#): an industry first fully managed shared hosting reseller billing solution, proving once again they are still "Ahead of the Rest®."

The innovative reseller program includes a free billing platform, runs off Linux and cPanel, allows for unlimited customer accounts, and is 100% customer branded. Understanding the importance of commerce and security for their resellers' customers, Superb provides 5 dedicated IP addresses for the base plan, which starts at \$29/month and includes 50GB disk space and 5TB of transfer.

"Everything about this new reseller program encompasses value innovation," said Ken Nunes, COO of Superb Internet. "From the free white label billing software, to Managed Billing, all the way through to the custom branding and cPanel, we have given shared hosting resellers what they really want out of a reseller program, while hitting their price-point."

Reseller Value

Immense value comes from the free billing platform that accompanies all reseller plans. The billing platform allows resellers to run a full business with fully branded invoices and client login, over 50 payment gateways, the ability to add any product offering like web design or development, and order form creation with cPanel integration and automatic provisioning. Superb staff is committed to providing reseller customers all the tools necessary for their new billing platform with live training.

Managed Billing, Superb.net will call their resellers' clients for them!

The Managed Billing is truly revolutionary with Superb billing staff managing the reseller's whole billing platform for as little as \$2/month per client, allowing the reseller the freedom to concentrate on building their business with features that include unlimited billing support, invoice management, and going as far as calling clients on behalf of the reseller; even the Unlimited Technical Support is fully reseller branded!

Unlimited Technical Support

With unlimited tech support for as little as \$2/month per client, resellers will sleep comfortably at night knowing their customers are well taken care of.

Resellers get \$100, and their friends gets \$100

Superb is so confident in its white label reseller opportunity that they have implemented a refer-a-friend program. Simply refer a friend to the Superb Reseller Program, and they will give both the reseller and the referred friend a \$100 credit.
